

Art

Upon successful completion of the Bachelor's of Arts in Art at Elmira College, students will be able to:

- Display and employ communication, critical thinking, information technology, organizational, and quantitative skills.
- Display and employ advanced technical and aesthetic skills by creating and exhibiting art work in both two-dimensional and three-dimensional media, and new technologies.
- Display and employ knowledge of art history, art theory and criticism in intellectual and practical artistic activities.
- Display and employ advanced skills in a specific artistic medium appropriate to post-graduate study, entry-level professional employment or self-employment as a professional artist.

Note: Learning goals are subject to regular review and revision.
