The New York State Department of Health requires proof of immunity against Measles, Mumps and Rubella. In addition, Elmira College requires the Meningitis vaccine (MCV) as well as COVID vaccination; these immunizations are required unless you supply a medical or religious exemption. Failure to comply within thirty days of arrival to campus will result in the withdrawal of the student from classes until the mandated documentation is provided. The required health information can be completed on the health portal, which is found at https://elmira.studenthealthportal.com/. Once registered, new students will use their Elmira College username and password (provided by our IT department) to log into the portal. Previously-registered students will have their previous Elmira College account and email re-activated within a few days of registration in order to log into the portal. Click the "my forms" tab and complete the listed forms.
